**Join us for Registration at 11:30 a.m., Lunch at Noon, Tournament Start at 1:00 p.m., followed by Awards Ceremony**

***All for just \$150 registration per person\****

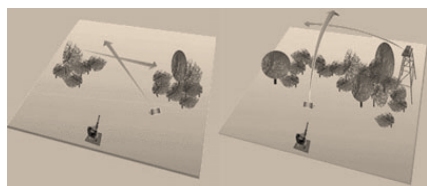

**Colorado Clays Shooting Park** is more than just a shooting range. The spacious clubhouse has been home to numerous corporate events, birthday parties, and even weddings. No doubt it will be home to many more in the future. Colorado Clays features year-round action with a fully automated Sporting Clays course set among some of the

region's most interesting terrain. Stations are presented along a beautiful cottonwood creek bottom that you can reach, by foot or golf cart, on a winding path through the course. Our course offers restrooms and water on the path and is handicap accessible. The course features 15 stations that are fully automated. Including a 60' tower and a 20' elevated platform that is sure to challenge all shooters. Targets are regularly changed on the course to assure a continuous variety for shooters. Our automated system also allows you to enjoy the course as a single shooter with a delay option. At the counter we sell ammunition, glasses, ear protection, and even some of our very

own Colorado Clays gear. Rental guns are available, just in case you show up empty handed, or need some new accessories. We also keep a gunsmith around. He's happy to help you out, but only if you make an appointment. Colorado Clays is dog friendly, and kid friendly. Outside, we're so kid friendly that we built a playground. Kids only. There's a covered patio and 3 picnic areas so you have plenty of space to make your visit a day at the range.

**Sporting Clays.** With its roots coming from England, sporting clays is a shotgun shooting game in which clay pigeons are presented to the shooter in ways that mirror the flight pattern of game birds, or occasionally rabbits, in their natural habitats. The shooting grounds are laid out in stations with each station representing one type of bird or a

combination of game; a rabbit and a grouse, for example. With variations in trap position, trap speed, shooting position, and flight paths of different types of clay pigeons, targets can come through the trees, from under your feet, straight down, over your head, quartering, going away, left to right, right to left, and in any path a real bird might choose. The key words are unpredictable, variable, and sometimes bordering on impossible.

We are located 6 miles east of I-76. Take Bromley Lane (Exit 22) east to Lanewood Street, then 1 mile south to the entrance at 144th. (303) 659-7117

*\* Shot size is restricted to 7 1/2, 8, or 9 shot. Rental guns are available, and shotgun shells are sold for \$7.00 per box of 25. Carts can be rented with advance reservation and accommodate 4 for \$20.00, but the course is not long and the walk between stations is a pleasant break! We will have 2 or 3 flights based on average skill levels (scores) and participation with place winners in each flight.*
